decorative panels that will change every interior

ARE YOU READY FOR SOMETHING NEW?

Discover innovative Design Solutions™ 4_kitchen decorative panels will reduce interior finishing costs and shorten redecoration time. Their base is MDF FSC® board with low formaldehyde emission covered with high quality polymer film. In production, we use a reactive PUR adhesive, which makes the panels stand out for their resistance to moisture and increased temperature. The elements are combined on a 2G click, so you always have a perfect fit. Forget about the classic kitchen backsplash tiles! Time for modern solutions.

design in line

WITH LATEST TRENDS

In the Design Solutions™ 4_kitchen storage programme you will find carefully selected designs inspired by stone, concrete, metal and by fabric patterns. We took care of the smallest details - each pattern is distinguished by its unique texture. We have also prepared a program available on individual order.

Design Solutions™ 4_kitchen decorative panels change the interior design, giving it a unique character. Thanks to the wide range of patterns you can easily match the panels to the style of your worktop and kitchen furniture. We recommend using Design Solutions™ 4_kitchen decorative panels in places not exposed to direct water. We also offer panels with increased moisture resistance on request.
