ELEMENTS MOUNTING

Depending on individual needs, commercially available mounting materials can be used to fix elements between each other or to fix them to the wall.

The set includes a stabilizing material that can be cut to the required size. It also prevents the elements from moving freely and protects the surfaces from scratching each other

FOR HOME AND OFFICE

about melaco

GET TO KNOW US BETTER

We create furniture components based on wood-based boards for leading furniture companies and design manufacturers. We use materials from a certified supply chain, so all of them are marked with the FSC logo. Our products are famous for their high quality and durability.

Our offer includes furniture elements, furniture front panels, furniture boards, tabletops, strips, panels, profiles, furniture casings and elements in click technology. Melaco products are produced in various dimensions and finishing types based on standard or own, unique technologies.

furniture modules

IS THE FUTURE

The pandemic and remote working have shown how great a role furniture plays in everyday life. Designers are now facing new challenges. How to arrange limited space in a practical and aesthetic way? How to find a place to work remotely without disturbing the layout of the zones in the home? The furniture modules, whose layout the owner adapts to his needs, solve this problem. The HOME STORE set from Melaco is a new dimension of the classic bookcase. Discover its possibilities today!

home store

ORGANIZE AND HAVE FUN

HOME STORE is a shelf and a designer partition wall that will divide the space in your home and office. Its universal character gives great freedom in interior design. Organise, arrange, move, just have fun! Thanks to the modular design, the look of the set can be changed at any time. And when one set turns out to be too small, you can easily expand it by adding more pieces. That's why the HOME STORE set wins the hearts of interior designers and architects!

HOME STORE is a set of solids and shelves available in several sizes with optional steel frames. The modules are made with tool-free FLICK&CLICK™ technology, so their surfaces are perfectly smooth and free of caps.

combine home store

WITH THE HOME OFFICE COLLECTION

In the Melaco offer you will also find HOME OFFICE, universal modules. They are units from which you can build a desk, bookcase, cupboard or coffee table. Together with the HOME STORE set it creates a complete series of modular furniture in line with the latest trends in interior design.
